

# Single Ingredient Product Profile Form Instructions

## Selecting the Correct Organic Label:

**“100% Organic”** - A single ingredient product produced without the use of processing aids or, if an organic agricultural processing aid was used, the processing aid was labeled as 100% Organic.

**“Organic”** - A single ingredient product that was produced using a processing aid listed in the National List of approved substances NOP 205.605 or NOP 205.606 or the organic agricultural processing aid was labeled as Organic.

**“Made with organic ingredients”** - A single ingredient product produced using a non-organic agricultural processing aid that is NOT listed on the National List of approved substances NOP 205.606.

## Labeling a Single Ingredient Packaging:

### Retail package labels must:

State on the information panel, below the contact information of the last handler or distributor of the product, **“Certified Organic by MOFGA Certification Services”** or **“Certified Organic by MOFGA”**.

**Labels must be approved by MCS.** Please do not have labels printed before they are approved.

### Wholesale Packaging:

You **MUST** have a Lot Number on the wholesale package.

**Attach the label(s) used for each single ingredient product with your application.**

## Using the USDA and/or MOFGA Logos:

**NOTE:** There are 2 allowed USDA NOP logos. One is black and white and the other is green and white enclosed in a brown circle. You may choose either, however, **NO changes (i.e. color) to either of the USDA NOP logos are allowed. If you choose the green and brown logo make sure your “printer” knows not to change it.**

If you intend to use both the MOFGA and USDA logos the MOFGA certification logo **must not** be more prominent than the USDA NOP logo.

**PLEASE SEND US COPIES OF YOUR LABELS FOR APPROVAL BEFORE HAVING THEM PRINTED**
